

## **Oral Contraceptive**

**Looking for a low dose of oral contraceptive?**

- **Not on oral contraceptives?**
- **On a continuous contraceptive?**

**If this sounds like you, we now enrolling subjects in a new study to evaluate a low dose contraceptive taken for six consecutive 28-day cycles.**

**The study will last for about 6 months.**

**If you qualify, you will receive a free evaluation, including blood tests and pap smear. You will also receive free study oral contraceptive medication and financial compensation for your time.**

**Call Teresa Collins**
